Australian Shepherd, OPEN (2)1AB

1<sup>ST</sup> Mr and Mrs Turners Am CH Harmonyhillssatinfunnycideman At Chakona.

I see from my catalogue that this four year old is double Champion bred, so its not surprising that his quality is so obvious , he makes an immediate impact on the initial inspection, so much so that hands on becomes a mere formality, and one knows straight away that this exhibit is straight from the top draw, shows excellent type, and presented in the very best of condition to take advantage of the glamour that can be extracted when one considers his function and working background, looks a perfect picture when posed presenting an outline that expresses superb balance, and that certain style that stands him out with evident male characteristics, I particularly liked his friendly outgoing temperament that ensures an expression that you just cannot overlook, he doesn't miss a thing, inside and outside of the ring, his construction and conformation qualities are used fully when asked to move, gaing with style and purpose on a loose lead that allows his head and towline to adopt the correct position, he is a great credit to his owner and the breed. A most worthy BOB, Group 1, Best In Show.

## POMERANIAN OPEN (1)

1<sup>ST</sup> Miss S A Bennet THELBERN MONSIEUR Le Blanc.

One liked very much, and I see from my notes my observations are very similar to the previous winner, he is very much in keeping with his standard, and gave an excellent account of himself, using his natural ring presence to exploit his many virtues with confidence and style, beautiful foxy head with a well proportioned large skull to muzzle ratio, that is proudly carried on a short well set neck, his body properties are neat and compact with required balance between ribbing and loin with sound quarters, and an excellent tail carriage that offers balance and style to

complete a very impressive picture posed and on the move. BOB

#### PAPILLON OPEN (1)

##### ROTTWEILER OPEN (1)

1<sup>ST</sup> Mr and Mrs G Clark Quebex Unique.

Standing alone, and still very much in the development stages in body and in mind, just needs a little firmer handling and schooling to make the required impact, particularly when there is opposition to overcome, her type and breed quality is evident, but is rather overshadowed by her playful nature, but I still saw enough promise to make her this award. Plenty of time to get her act together. BOB.

#### BOXER LIMIT BITCH (3)2AB

1<sup>st</sup> Mrs E Farnon Dragonfly Polka,

A locally bred two and a half year old red and white, and showing lots of promise, and whilst her head type from a breed specialist perspective is not quite my type, I can see this bitch appealing to the all-rounder as her overall four square construction and evident well defined conformation with required angles front and rear are very much in keeping with what is called for in the standard she expresses strength but still retains her femininity posed and on the move.

BOB

## DOBERMANN OPEN (1)

1<sup>ST</sup> Mr R J Whitaker Amazon Hot Love.

A very mature three and a half year old, another exhibit that compares to the standard very well with obvious type and quality, with complementary handling that presents an outline without exaggeration as far as construction is concerned with a pleasing height to length ratio that covers just the right amount of ground, however these virtues pale in insignificance on closer inspection by carrying too much weight with a certain loss of body shape particularly in the loin area, I believe she had just gone out of season which didn't help, one I believe who deserves and will make a far better impact when the conditions are right in the future.  
BOB.

## AV Working N P C Puppy (1)

1<sup>st</sup> Mrs D Williams Dornoir Monmouth ,

Another standing alone, but can stand in any company on today's evidence, for a six month old puppy he had everything one could ask for, given a fair crack of the whip, I believe he can make a real impact on the island, his type, quality, and style even at this age is so easy to see, I just hope he maintains and develops his many virtues, as my only concern is that for a large breed at this age, he is all there, and a rather measured patient approach is required to guarantee his future potential.
